Subject: Tunney Act: Public Comment US v Microsoft

Dear Ms. Hesse

I am responding to your request for public comment under the Tunney Act in US v Microsoft.

I strongly urge you to settle the case against Microsoft with as few restrictions on Microsoft as possible. Microsoft and companies like them epitomize the innovation which makes the United States great. At all times, and particularly during the difficult one we now face we should be embracing the companies which have contributed so much to our country and economy and we should not hold them back by pursuing outdated regulatory concerns brought on by a group of less successful and disgruntled competitors.

I am a private citizen with no affiliation with Microsoft or any of their competitors.

Thank you,

Edward Romer
